

Stand up for Federal Law Enforcement Officers!

Government workers in law enforcement risk their lives every day to keep their communities safe. But under the law, they're not considered true law enforcement professionals. That means they make less pay, receive fewer benefits, and can't access their full retirement benefits until years after their peers do.

FPS officers, and police officers from VA, DOD and the U.S. Mint are honorable protectors of the public and they deserve recognition as law enforcement officers. These professionals are trained to use and carry authorized firearms, yet they are only considered law enforcement officers when they are killed in the line of duty and their names are inscribed on the wall of the National Law Enforcement Officers Memorial.

It's time our federal law enforcement officers received the pay and benefits they have earned. Write to your lawmakers and tell them: give us pay equity and sign onto H.R. 964 and S. 424!
